

HIKVISION NVR

To playback footage;

1. Plug in your USB-Thumb Drive into the front USB port of the NVR
2. Right-Click anywhere on the screen and select 'Menu'
3. You will be asked for a password, enter the password, then press 'Return' & 'OK'
4. You then are prompted with a Menu, Select 'Playback'

5. Select which cameras that you would like to view the footage of (max. 16) and select the Month/Date

6. The bottom time bar will then populate with recording instances, you can then scan through the times by clicking to shift the playback bar

7. When you find the footage that you would like to download, at the beginning of the chosen footage, click the scissors down the bottom left of the screen to 'start clipping'
8. Play through your footage and when the you've seen all you need, click the pair of scissors again down the bottom left to 'Stop Clipping'
9. Then press the 'X' at the top right of the screen and you will be prompted to save the footage. Click 'Yes'
10. Tick the check boxes, Press 'Export All', then select your USB-Thumb Drive and press 'Export'
